

## **Storytime Etiquette**

Please arrive early to allow children time to get settled and prepare to be active listeners.

Children learn from watching others. Participation in the program is a great way to model for the children. Join in with the songs and finger plays.

Turn off cell phones and other devices to minimize distractions. Take advantage of this time to further bond with your child. Feel free to socialize with other caregivers after the program.

Read, Read, Read!! Children learn so much from books. Continue the teaching experience by checking out some library books to take home!
